1. As a **Restaurant owner** I would like to be able to access the option to add my restaurant in a simple intuitive way so I don't have to waste time setting it up.

2. As a **food app user** I want to have the option to see recent orders, as well as be able to repeat orders from the past to save time, and to be able to see the money I have spent.

3. As a **food app user** I want to be able to get food closer to my precise location to decrease the amount of time spent ordering and eating.

4. As a **food app user** I want to be able to filter the restaurant options for me so I can find the kind of food place I want to eat at, and know that I will not be spending more than I want to spend.

5. As a **food app user** I want to be able to see ratings on the restaurants and the food I order so I can try food I will be more likely to enjoy.

6. As a **food app user** I want to be able to see food deals when I find the restaurant I want to eat at so I can try something new and find cheaper options.
